About Higher Education Forum

Higher Education Forum (HEF) is promoted as an advocacy group of individuals concerned with issues and challenges in the landscape of higher education in India. The individuals include representatives from all stakeholders of higher education. The sole objective of the forum is to help creation of an excellent world class higher education system in India. This encompasses creation of appropriate structure, strategies, processes and development of institutions. One of the major tasks of HEF is to keep itself apprised of the developments taking place in higher education.

Founded in 2009 with a view to transform India with an innovative and ebullient higher education system, the forum has emerged as the largest such on-line community on a global scale with more than 3,500 members.

HEF is involved in a number of capacity building activities including conducting seminars/ conferences on topics of importance and relevance to various aspects of higher education. The forum also has a bi-annual journal known as HEF Indian Journal of Higher Education, one of the respected journals in the space of higher education in India.

About the Organizing College

A fifteen-year young and evolving Patuck-Gala College of Commerce & Management is under the aegis of the 85-year-old Patuck Polytechnic Trust, which is registered under the Bombay Public Trust Act, 1950. The Trust has gradually appended educational institutes under its umbrella and today imparts education to all age groups, right from toddlers to graduates and also vocational students. The educational institution has its roots in philanthropy and that culture is deeply rooted even today.

Patuck-Gala College of Commerce & Management is affiliated to University of Mumbai. The College offers Bachelor of Commerce (B.Com), Bachelor of Management Studies (BMS) & Bachelor of Banking & Insurance (B.Com (B&I)). The Vision of the Institute is "To innovate, enhance, empower and excel in education." The efforts put in by the College was acknowledged and applauded by the University of Mumbai in the academic

year 2015-16 when it awarded our College the best NSS unit of the year. Again, in July 2017, the College was awarded the Best Academic Institute for Student Services and the Best Emerging Institution, by The Indus Foundation. The College is accredited by NAAC in the second cycle and is awarded B++ Grade (CGPA 2.77).

About the Conference

Indian higher education system is passing through a phase of crisis. While the universal access to education is itself a challenge, the quality and integration of knowledge with skills and application are equally the major issues of concern. The falling employability rate of the graduates at all levels is quite serious. Barring a few islands of excellence, both the public as well as private sector Higher Education Institutions (HEIs) are suffering from huge quality issues from the global benchmarks, both in terms of teaching-learning outcomes as well as creation of new knowledge through research & publications. The need of the hour is also to move swiftly to technological innovations to scale up operations.

The silver lining amidst the cloud of uncertainty is the New Education Policy (NEP) that is likely to be promulgated shortly. It is expected that many of the above issues will be addressed by the NEP.

It is in the above backdrop that HEF as the major think tank in the space of higher education in the country has contemplated to organize International Research Conference on Higher Education each year. This will be a regular intellectual event of the HEF on an annual basis.

The main objectives of the Conference would be to collectively explore, debate and come out with innovative solutions to the major problems that the Indian higher education system is facing both at macro as well as micro level. The end objective is to create a nation that can become the centre of knowledge and learning on global scale.

HEF, Patuck Gala College hold forum on higher education

An international research conference on 'Higher Education in India: Issues & Challenges and Way Forward' was held recently. Higher Education Forum (HEF) collaborated with Patuck Gala College of Commerce & Management for this function.

A daylong event that was hosted in the Gala Auditorium of the Patuck Campus resulted in productive dialogue and intense discussion. The opening address and welcoming remarks were given by Adil Patuck, Chairman, Patuck Polytechnic Trust. The session was well convened by A K Sengupta, Founder and Convener, HEF. The presence of Peter Cunningham, Emeritus Professor, Nelson Mandela University, South Africa and Professor Z Polkowski from JW University, Poland, gave an international perspective to this 'need of the hour' discussion.

The day witnessed 10 paper presentations authored by researchers coming from reputed colleges and institutes. Enthusiastic participation of 50

attendees across industry and academia made the event a huge success. The conference deliberated on three sub themes, 'New Generation Teachers: Skills and Competencies, Innovations in Teaching Learning Process and Building Academic Corporate Linkages', each elaborated and moderated well by renowned educators and management professionals.

The first session that focused on adoption of information and communication technologies that play a propounding role in transforming higher education to increase and improve access, quality, equity, pedagogy, efficiency and control. The intent was to enhance attractiveness and retention dimension of learning. T3 framework contextualising its use into three stages: Translational, Transformational, and Transcendent and inferences based on the 'Theory of Connectivism' definitely struck a chord.

The presentations spoke volumes about the relationship between the social media and students' academic efficiency and performance. Re-

searchers levied stress on role of teachers as agents of change as they have unique and influential position in the education system's communication structure.

Another interesting session on innovations in teaching learning process highlighted on effective methodologies. Collaborative learning and educational tours are progressive methods involving students in real world tasks and linking new or unknown topics with the ones which are already known to the students. The students thereby not only work on academic assignments but also get to develop their social skills and learn together, which improves their relationships with others in the class. It allows them to engage and involve themselves more actively in the learning process rather than just be passive students.

The vote of thanks was given by Meeta Pathade, Principal, Patuck - Gala College of Commerce & Management, where she expressed her gratitude to all those who made the Conference possible.
