About Us

Patuck- Gala College of Commerce & Management is under the aegis of the Patuck Polytechnic Trust which has been now in existence for over 85 years. The Degree section began operations in 2003 and since then has grown in leaps. The reason for the growth is the zeal to compete and benchmark with itself. It focuses on the holistic development of the students and endeavours to provide the widest possible exposure of the real world, making them ready to take on the world in their personal lives and the corporate world in their careers

Concept Note

In the field of Academics in the past years, there has been a great deal of discussions and deliberations to understand the perspective and expectations of the corporate world from students and also the academics from students - however, not much has been deliberated on understanding the Student's Perspective, of their expectation from the contribution of stakeholders that would possibly make their future brighter. This is a platform that the College proposes to provide to students to come forth with their creative suggestions to make Academics more fruitful
